

Below is feedback from a person who attended the Fall 2017 (Sept-Dec 2017) edition of the Storytelling Therapy course via videoconference:

—

9 Jan 2018

I want to express my feedback on how the class made an impact on me and my work. I love how it served as a consistently evolving dialogue about diverse approaches in the effective use of symbol, metaphor, and motif. The class provided a very supportive framework for sorting through the infinite complexity of the experiences of ourselves and our clients, as well as our projected desires (outcomes). Thanks Eric for being our guide. I appreciated your deep listening skills and ability to expertly draw from the disciplines of folkloristics and psychology for an exploratory approach that is both spiritual and scientific.

Sincerely, Trisha
